➤ - SELF IMPROVEMENT RESOURCES AND ET CETERA:

**REMEMBER:**

No matter who you are, you can improve your life. Take control. Move forward. Dreams keep us alive, fighting for them makes us feel alive. YOU need to be change that you want to see in the world. If you've already watched/read some of the things listed here, you already know that there is something deeply wrong with the world today. Don't be consumed by demoralization, there is hope. YOU CAN CHANGE THE WORLD.

**THE BODY:**

A strong and healthy body is the foundation of a vigorous mind. Your intellect means NOTHING without a strong body. Stop stuffing your face with poisonous and fattening, artificial foods, cultivate a good sleep schedule and go to the gym to sculpt the body you require, if you cannot afford the time or money to go to a gym or simply do not wish to. Look into the works listed in this section for the info you need on how to exercise properly at home along with exercise in general.

**THE MIND:**

Free your mind from the poison of modern depravities. Such as porn and masturbation, you will damage your mind and body in the long run. Stop squandering your time on social media and start to READ. Educate yourself on the truths of the world, the more truths you perceive the more determined you will become to change them. Cultivate discipline, try to replace bad habits in your life with something productive like reading, creating art, writing, or something as simple as morning stretches.

➤ - **SPREADING THE MESSAGE: Here is a basic guide on spreading the truth.**

**1.** Going full “1488” will never help the cause. It will only reinforce the image the media has put upon us. Along with that it will probably ruin your life and you'll be permanently labeled as a “Neo-Nazi Psychopath”, While also making people more sympathetic to the bankers as you would have practically proved the media's "evil Nazism on the rise" narrative. The best way is simply this: Be subtle. Be cautious. But always truthful.

**2.** Dropping truthbombs at random or without being prompted, no matter how subtle, is one of the worst ways to get someone to consider what you have to say. Instead; be patient, wait for a proper time to show them truths. Some good examples being:

- a. You and the other person/group are watching the news, and an anti-white media or story appears.
- b. A friend speaks out about how they feel demoralized by the current governmental system.
- c. They bring up a blatant anti-white article/social media post.
- d. A friend complains about something related to the economy such as banking, housing, interest, etcetera.

**3.** Now what you need to tell/show them depends on the situation at hand. If the conversation is about an anti-white piece of media; show them a clip of international bankers talking about “Enslaving goyim.”, or tell them about Cultural-Marxism. If the conversation is about immigration; show them clips of elites talking about how they are "at the front" of mass immigration into white countries. If the conversation is about economics then tell them about banker speculation of the market along with the multitude of other evidence related to market manipulation, currency manipulation, usury, etc.

➤ - **MAKING A DIFFERENCE: Some basic guidance on how to make a worthwhile impact.**

**What Should I NOT do?:**

The number one outlet to avoid is violence. Violence should never be used to make a difference, or to send a "message", the only time violence is permissible is in defense of you or your people. A good example of why mindless violence is pointless and harmful to actual National Socialists is the instances of violent and murderous "neo-Nazis" shooting up random places with "1488" written on their faces. These "neo-Nazis" as shown on television and online are **not** National Socialists. They are psychopaths and social rejects that have left deep stains on our movement due to their "connection" to the National Socialist movement. Another practice that is detrimental to the movement is simply having a substandard self-image, or an odious appearance that is unbecoming of a true National Socialist. Along with that problem, there is another issue that also plagues most people of the modern world. This plague being a lack of drive, hope, and mental prowess. This "plague" is mainly caused by pornography, movies, and other forms of abhorrent mass media. The National Socialist is knowledgeable of these Hollywood "plague bearers" and distances themselves from their poison. The National Socialist is not loathsome or apathetic, they do not dwell on their past mistakes, they never ignore a call for aid. The National Socialist is a compassionate and logical individual, always looking forward, and always looking for a friend in need.

**What Should I Do?:**

First off, before you improve your nation, you must improve yourself. "*Study, Lift, Improve.*" This is the saying that you should live by. Use the resources already listed in this document for self-improvement. Then move on to the next step: Helping and improving your community. How do you this? Buy local, help your neighbors, plant a community garden in your local area, encourage a sense of pride in your community, etc.. While you are improving your community, you should also begin to introduce them to the truths of National Socialist thought and what its true meaning is. (I recommend using the "Spreading The Message" section above for advice on this) After spreading the values and truths of to your community, it is up to you on how you wish to proceed. Will you run for a political office and bring positive change? Or Would you rather settle down and maintain your community for the days to come? Or maybe you aspire for something even greater?

***The future is yours, take it..***
